EDUCATION

BNM Institute of Technology

Computer Science Engineering **CGPA – 9.51**

Banashankari, Bengaluru

Sep 2023 – Sep 2027

Alvas PU College

Class – XII PUC **Percentage – 94.83%**

Moodbidri, Dakshina Kannada

April 2023

Nalanda High School

Class – X **Percentage – 95.84%**

Tiptur, Tumkur

July 2021

PROJECTS

- **Invoice Processor (Python, Pandas, Tkinter):** Developed a desktop application to automate PDF invoice processing using Python, Pandas, and Tkinter. Extracted invoice data, generated Excel and PowerPoint reports automatically, and visualized vendor-wise spending through an interactive GUI, significantly reducing manual reporting effort.
- **Student Feedback Application (Flask, MongoDB, Docker):** Built a web-based feedback management system using Flask and MongoDB with secure data storage and retrieval. Containerized the application using Docker, performed code quality analysis using SonarQube, and utilized Git and GitHub for version control.
- **Meal Planner Website (Full Stack):** Designed and developed a responsive full-stack web application using HTML, CSS, JavaScript, and MongoDB that generates personalized calorie-based meal plans based on dietary preferences such as Vegetarian, Non-Vegetarian, and Vegan. Implemented dynamic meal regeneration, feedback collection, and user-friendly About and Contact modules with database integration.
- **Micro Scan AI (YOLO, Flask, OpenCV):** Developed an AI-powered microplastic detection system using YOLO, Flask, and OpenCV to identify and classify microplastic particles from water sample images. Integrated contamination risk assessment, automated report generation, and a web-based interface for efficient environmental monitoring.

PRACTICAL LEARNING AND INTERNSHIP

- **Web Development Intern**
Organization: BNMIT, Banashankari, Bengaluru | Role: Intern | Duration: 3-Week Internship - Gained hands-on experience in web development using HTML, CSS, JavaScript, and MongoDB. Built dynamic and responsive web applications while strengthening skills in full-stack development, database integration, and web solution implementation.
- **Computer Vision Intern**
Organization: RoboManthan, BTM Layout, Bengaluru | Role: Intern | Duration: 2nd June 2025 – 27th June 2025 – Gained hands-on experience with OpenCV and computer vision techniques using Python. Developed mini-projects including color detection, object detection and identification.
- **Data Analytics Job Simulation**
Organization: Deloitte Australia (Forage) | Role: Virtual Experience Participant | Duration: March 2026-April 2026 - Completed practical tasks in data analysis and forensic technology, gaining hands-on exposure to data-driven problem solving, insight generation, and analytical workflows used in consulting projects.

TECHNICAL SKILLS

- ✓ **Programming Languages:** Java, Python, C (Basic).
- ✓ **Tools and Platforms:** Git, GitHub, VS Code, Docker.
- ✓ **Web Development:** HTML, CSS, JavaScript, Flask.
- ✓ **Databases:** SQL, MySQL, MongoDB.
- ✓ **Concepts:** DSA, OOPS, DBMS, OS.

HACKATHONS

- **RIFT '26 Hackathon | Physics Wallah Institute of Innovation.**

Participated in a national-level 24-hour hackathon, collaborating with a multidisciplinary team to design and prototype an innovative solution for a real-world problem under strict time constraints.

- **AI RENA 2.0 | REVA University.**

Developed and presented an AI-based scar imaging solution for automated post-surgical healing assessment using computer vision and image analysis techniques.

CERTIFICATIONS AND ACHIEVEMENTS

- **Software Engineering and Agile Software Development**– Infosys Springboard
- **SQL (Basic) Certificate** – HackerRank
- **Introduction to RPA** – Infosys Springboard
- **Introduction to MongoDB** – MongoDB
- **Scholarship for Academic Excellence**
